# VENDING SOLUTIONS

IF YOU CAN BUY IT, WE CAN VEND IT.

## Discover the Difference with the DGI Automated Procurement Solutions Program!

With more than 30 years of expertise in Industrial Vending, DGI Supply's Automated Procurement Solutions (APS) enhance your business through effective inventory management, vending solutions, e-commerce, and beyond!

Our innovative strategy includes real-time inventory tracking and data analytics, enabling businesses to optimize stock levels and reduce waste. By utilizing advanced technology, DGI Supply guarantees that essential items are always on hand, minimizing downtime and boosting efficiency. Additionally, our user-friendly interfaces facilitate easy access for employees to the tools and supplies they need while providing managers with valuable insights into consumption patterns and trends. Whether you're implementing a new system or refining an existing one, DGI Supply is dedicated to delivering solutions that are as adaptable and unique as the businesses they support.

## KEY DRIVERS FOR LOWERING COST

### Item Consumption Reduction

DGI Supply has delivered up to 40% through increased accountability and the ability to take back control

### Increased Machine Uptime & Throughput

Reduce crib-trip time, turn data into actionable information, address bottlenecks, and provide training and testing

### Purchasing Cost Reduction

Automate the process, reduce the number of POs and invoices, vendor rationalization, and reduce or eliminate non-value-added activities

### Gains from Improved Inventory Management

Reduce obsolescence, lower total inventory, reduce stockouts, product rationalization, and manage durable tools

## SERVICES

# ADVANCED METAL CUTTING SERVICES

SAWING SPECIALIST

METALWORKING SPECIALIST

COOLANT SPECIALIST

## DGI SUPPLY METALWORKING SERVICES

DGI Supply takes a comprehensive approach to our customers' unique needs. Our team of specialists looks for opportunities to improve processes touching supply chain, production and product flow, preventative maintenance, reconditioning, metrology and more.

Our **DoALL Sawing Specialists** are well versed in the process of mechanical and CNC band sawing and will help optimize sawing processes. Our service technicians are responsible for ensuring that band saws are properly serviced and functioning correctly.

Our **Coolant Specialists** ensure that coolants effectively dissipate heat, prevent corrosion, produce the desired surface finish, and maintain the overall fluid quality at your facility.

**Cutting Tool Specialists** at DGI focus on selecting, optimizing, and maintaining cutting tools for various machining processes. They consider material properties, tool geometry, wear patterns, and cutting parameters to achieve your production needs. We also deploy AI technology to improve your Overall Equipment Effectiveness (OEE). The DGI Application Specialist team is proficient in a variety of CAM software programs such as Mastercam

- 1.Tool selection
- 2.Machining parameters (tool path, speed, feed, and depth of cut)
- 3.Fluids and Lubrication
- 4.Workpiece properties
- 5.Production planning and scheduling
- 6.GTO + Programming

By addressing customers' unique needs, specialists seek to enhance the supply chain, production, product flow, and more. DGI supports its recommendations with guarantees for productivity and cost savings for committed customers.
